

# ECO-TAINER: 40 & 58 GAL

**WRP Containers' fully automated Eco-Tainer line of Litter and Recycling Receptacles demonstrates innovation in trash collection. Our contemporary design and state of the art rotational molding exceeds all receptacles by offering a newer and technologically advanced solution for today's modern cities and facilities.**

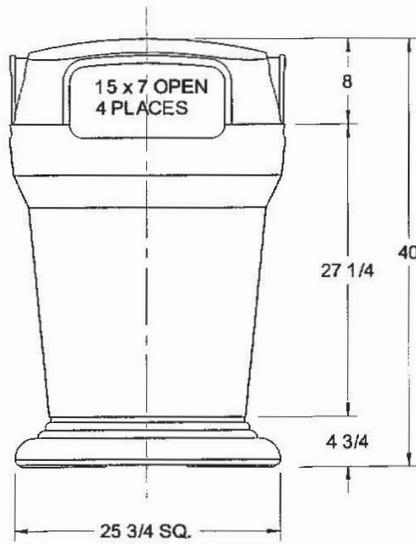

**Our fully automated Eco-Tainer Litter and Recycling Receptacles replace the outdated and unsightly concrete and metal receptacles commonly found in Downtown City Streets, Retail Centers, Recreational Parks, Stadiums, Concert Venues, Hotels, Restaurants, College and HighSchool Campuses, Convention Centers and Bus Stops.**

- Designed for fully automated service or manual service.
- Double wall construction for superior strength and leak protection.
- Available in popular 40 & 58 gallon sizes.
- Zinc-plated hardware is rust resistant.
- Pedestal can be weighted up to 70 lbs. for added stability.
- Safer and quieter than concrete designs.
- For interior and exterior use.
- Available in multiple colors.
- Textured surface reduces smudges and prints.
- 3 year limited warranty (under normal use).
- Wheel free design to limit excessive movement.
- Seamless construction eliminates cracking at seams.
- High density polyethylene (HDPE) plastic is 100% recyclable.
- UV protection added to resin to reduce fading.
- Ships fully assembled.
